SenStories™ Selector Tool

Nicholas Vallillo, North American Business Development Specialist, Croda

The SenStories™ selector tool has been developed to help you discover suitable oil-in-water emulsifier system recommendations, for the development of skin care formulations with targeted sensories. SenStories utilizes reliable, reproducible methodology to connect insights on consumer perception and language choice with the knowledge that ingredient combination and colloidal structure are responsible for a given sensory. This information enables predictive ingredient selection for the development of formulations with targeted, desired sensories – enhancing the product development process by saving the formulator valuable time whilst ensuring alignment with consumer expectations.

Nicholas Vallillo is the North American Business Development Specialist for the Croda portfolio and has spent the past 4 and a half years at Croda. Prior to joining the commercial team in 2022, he worked as an Applications Scientist in the Beauty Care Formulations team. Nick started his career at Church & Dwight in 2012 where he worked on finished goods as a Chemist in their Beauty Care department for five and a half years before joining Croda in 2018. He is a graduate of Kutztown University of Pennsylvania where he majored in Micro/Molecular/Cell biology and is currently pursuing a Master's of Cosmetic Chemistry from the University of Cincinnati. In his free time Nick enjoys cycling, snowboarding and taking road trips with his wife and 1 year old son.

Chatting with the Chair

Message from the Chair,

Welcome fellow SCC members and supporters. Springtime is just starting in the South. It is my favorite time of year, coming out of the gray of winter, so much hope and sunshine. Your officers are already laying the groundwork for a fun and educational 2023.

Our first event of the year will be a dinner presentation in Chattanooga. My family has lived in the area going on 4 years now. We really love it. If you have not made the trip to Chattanooga before, please come to our March 23rd, Thursday, event and make a weekend of it.

[Chattanooga, Tennessee | Things to Do, Hotels, Events \(visitchattanooga.com\)](#)

Our dinner will be at Stir [STIR Chattanooga](#) a terrific venue.

Our dinner presentation is on:

The SenStories™ selector tool has been developed to help you discover suitable oil-in-water emulsifier system recommendations, for the development of skin care formulations with targeted sensories – enhancing the product development process by saving the formulator valuable time whilst ensuring alignment with consumer expectations.

The Presenter:

Nicholas Vallillo is the North American Business Development Specialist for the Croda.

Followed by ax throwing, which is always a good time. <https://valkyriexethrowing.com/>

As a chapter and a Society, we have an important ask of you are members. We need to expand our membership and participation. Covid has reduced both general participation amongst existing members and the number of people who have renewed their memberships. To remain a healthy organization, we need to reverse that trend. In the past we heard that people would like dinner/presentations closer to home. That was the reason we started having meetings in Chattanooga and Murfreesboro. We are exploring the possibilities of more interactions with adjacent chapters, maybe new cities for dinner/presentations etc. Possibly connect better with our local universities and students and always open to better interactions with our local Cosmetic businesses and employees. These thoughts and ideas should give you an understanding of where we hope to take the chapter to better serve you, our members. Happy to discuss more in the future.

So on March 23rd, come by, drop in and hang out for the evening, catch up with old friends and please make some new ones.

I hope to see you there.

Sincerely,

Stephen Baldwin, 2023 Southeast Chapter Chair

Just for fun, two Chucky facts.

“When the Boogey man goes to bed at night he checks for Chuck Norris under his bed”.

One of my top 5 favorites, which I may have share already.

“Why does Chuck Norris have a night light in his room? Because the dark is afraid of Chuck Norris.

- Tailored Zinc Oxide products for UVA, UVB & transparency
- Natural and photostable
- Non-penetrating and safe

Zano 10 & Zano 10 Plus

Greatest balance between UV protection & transparency

Zano 20 & Zano 20 Plus

Highest level of transparency with sufficient levels of UVA to meet CWL requirements

Zano M & Zano M Plus

Highest level of UVA protection with a CWL boost

Spelman College

Cosmetic Science Certificate Program

Spelman College now has a Cosmetic Science Certificate program available! Under the direction of Dr. Leyte Winfield, Professor of Chemistry and Biochemistry, Division Chair, Natural Sciences and Mathematics, and eSpelman Cosmetic Science Certificate Program Leader, this online certificate program will cover the historical trends that inform beauty practices in communities of African descent, basic formulations for creating products for hair, skin, nails and teeth, effective terminology describing ingredient structure, safety, stability and function in a cosmetic product, and regulations governing production and marketing of cosmetics.

For complete information about costs, start dates, prerequisites, and the course listing, click the link below:

Banana Bread

Ingredients

2 large, very ripe bananas
1 stick cold butter, cut into 6 or 7 pieces
1 1/2 cups of all purpose flour
3/4 cup sugar
2 large eggs
3 TBS lemon juice
1/4 cup of milk
1 tsp baking powder
1/2 tsp baking soda
1/4 tsp salt
1/4 to 1/2 cup roasted pecans

Directions

Preheat the oven to 350°F. Grease a loaf pan. Cut the bananas into large chunks and place in a food processor bowl with the butter. Process until mixed. Add the flour, sugar, eggs, lemon juice, milk, baking powder, baking soda and salt. Process just until mixed – DO NOT OVERMIX. Add the pecans and process for 4-5 seconds. Pour into the prepared loaf pan and bake for 55 – 60 minutes until a wooden pick inserted in the center comes out clean.

SCC Southeast Chapter November 2022

2023 Chapter Officer Installation by 2023 National Vice President, Tony O'Lenick, at The Grillehouse in Southaven, MS.

The Society of Cosmetic Chemists HQ's NextGen Advisory Group would like to invite your chapter to collaborate with us! The purpose of the NextGen Advisory Group is to assist with strategy development to increase program visibility, engagement, and impact of our programs to next generation of cosmetic chemists. Our efforts are currently focused on social media, outreach, education, and career development for Student, Junior, and early careerist General members.

We are seeking opportunities to talk with undergrad and grad students as well early careerists in cosmetic science to help keep the Society of Cosmetic Chemists' membership growing and help prepare them for careers in our industry. We are collaborating with the Chapters to produce career development-focused events in the coming months.
