Southeast Chapter Scientific Dinner Meeting

Wednesday, March 15, 2017

Speaker: Ashrah Hossain, Ingredion
"A New Bio-based Deposition Polymer"

Location: 212 Market Restaurant

212 Market St.

Chattanooga, TN 37402

5:30 pm to 6:00 pm - Registration/social half-hour

6:00 pm to 7:00 pm - Dinner

7:30 pm Speaker Presentation

\$45 - SCC members

\$50 non-SCC member

RSVP by noon, March 13th to Molly McEnery
(423) 228-4508 or e-mail: molly@colonialchem.com

Presentation: “A new bio-based deposition polymer: A comparative performance assessment versus traditional cationic polymers”

Abstract:

For several decades, formulators have used a variety of cationic polymers to condition and promote deposition of silicone or other benefit agents in rinse-off products. A novel naturally-based deposition polymer - Starch Hydroxypropyltrimonium Chloride (SHC) - (patent pending) will be introduced. Cleansing formulations based on SHC provide excellent clarity and a high degree of bio-based content. In personal care applications, SHC imparts excellent conditioning benefits on hair and skin.

This presentation will describe quantitative and qualitative evaluations of prototype shampoo, body wash and lotion formulations containing SHC or traditional polymers such as Polyquaternium-10 and Guar Hydroxypropyltrimonium Chloride. Combing tests conducted at a third party laboratory clearly shows that SHC reduces wet combing force by approximately 50% as compared to Polyquaternium-10. It shows the highest silicone deposition efficiency from a simple SLES/Betaine

Speaker: Ashraf Hossain has more than 15 years of experience in personal care products, and he is currently working at Ingredion as a Business Scientist. Within two (2) year at Ingredion/Penford, he launched personal care ingredient - PenCare™ DP and co-invented cationic substituted starches. Prior to joining Penford, Ashraf worked at Unilever and Alberto Culver. His formulations are used in TRESemme, Nexxus and Motions. His research and formulations have contributed millions of dollars to the bottom line at Alberto Culver. At Colomer USA (Revlon), he was instrumental in building #1 Men's line, American Crew.

Ashraf earned his BS degree in Polymer Science from the University of Southern Mississippi (USM). He researched personal care ingredients under the direction of Professor Robert Lochhead at USM. He is the co-inventor of “Use of Herbs in Hair Relaxation” and 2005 Crane Award winner. He is also a member of the Society of Cosmetic Chemists (SCC) since 1996. Recently, he presented a technical poster to the 69th SCC annual meeting and gave a few technical presentations to the SCC chapters. He considers himself an application leader with the ability to mold technologies into new opportunities in the marketplace.

CA SPECIALITIES, LTD.
Latest Technology. Unsurpassed Service.

01/06/2017

It is with the greatest of sadness that I deliver to you today the heartbreaking news of the death of our colleague and friend, Stella Vaughn. Stella passed away on Dec. 31, 2016, unexpectedly. On behalf of all of us here at CA Specialities, I have sent to her family, our most heartfelt condolences and sympathy.

Stella will be deeply missed here, leaving behind now only those fond memories we have of her. Her positive outlook on life was most admirable, even contagious some would say. She always had a smile for everyone and was highly regarded by everyone who ever had the opportunity to meet her. Stella with her positive outlook on life would want us to not grieve her death, but rather, celebrate her life. That sounds just like her, doesn't it? She always did enjoy life to the fullest.

This is truly a great loss to our organization. Back in 1990, Stella joined CA Specialities as our first sales representative. Over the years, she was an exceptional colleague who helped the company achieve new heights. Everyone who'd ever had the privilege of working with her found her a special pleasure to work with.

She will be profoundly missed by everyone whose lives she touched. Nevertheless, let us remember Stella each time, with a smile upon our faces.

Sincerely,

Cathy A. Clark

Eighth Biennial Holistic Cosmetic Symposium & Suppliers Showcase

SOCIETY OF COSMETIC CHEMISTS - Twin Cities Chapter

Save the Date!

Holistic Symposium
March 21st, 2017

Earle Brown Heritage Center
Brooklyn Center, Minnesota

Topics considered for presentations include: Organic Ingredients • Green Packaging • Natural Preservatives • Green Manufacturing • Formulating Green • Sustainable or Fair Trade Ingredients • Biodiversity and Ethical Sourcing • Marketing and Consumer Trends • Regulatory Updates

- Presentations to be given in the morning session
- Supplier Showcase to be open in the afternoon session

Please contact Justin Steinke for any questions: Justin.Steinke@JRWatkins.com

Come be a part of the SCC's original Green Symposium!

Formal invitations and full schedule of events and speakers to be sent out at the end of January 2017

THE SOCIETY HAS A NEW LOOK

SOCIETY OF
COSMETIC
CHEMISTS

New York, NY – The Society of Cosmetic Chemists (SCC) unveiled its new logo at the “Naturally Kiawah Symposium” held last week by the SCC Carolina Chapter on Kiawah Island, SC.

“The launch of our new brand logo kicks-off a new era of the SCC that speaks to who we are as an organization and that we are a direct reflection of the strong community of dedicated members we’ve been serving for over 70 years – multidisciplinary, dynamic, modern and sustainable,” said Debbie Pierce, SCC President.

The SCC worked with the design firm Strong Studio, based in New York City, to create its new logo. Following an intensive process which began in 2015 and included information gathering about the SCC, researching the landscape both in terms of other non-profits and industry organizations serving the cosmetics and personal care space, a logo was selected which both recognizes the history of the Society in advancing cosmetic science education while at the same time creating a look and feel that is modern and forward-looking.

“Strong Studio’s goal in redesigning the SCC logo was to give SCC a modern brand identity that spoke to the organization’s position as a trusted source for the cosmetics and personal care community,” noted Matthew Strong, Principal and Creative Director. *“The previous SCC logo was nondescript so redesigning the brand to have a distinctive personality was essential.”*

In the new logo, the hexagon icon is inspired by the structural formula of organic compounds. Comprised of equal, balanced sides, the two “Cs” from Cosmetic and Chemists come together to create the “S” of Society in the negative space, representing multiple disciplines working together to make a greater whole. With the “S” in the middle, the Society becomes the bridge between cosmetics and science.

“We are proud of our history,” David Smith, SCC Executive Director added. *“This new logo shows the pride in that history and also the excitement for our future as we embark on our next 70 years. The structural formula icon, the way the ‘C’s create the ‘S’ of a greater Society, the green color denoting sustainability...this logo marks an exciting new day.”*

SAVE THE DATE

SCC Annual Meeting in December in New York resumes in new location and new dates!

The 2017 SCC Annual Meeting has changed venues.

The Westin New York at Times Square will be the home for the annual event scheduled for **Monday, December 11 - Tuesday, December 12, 2017.**
