Advice on Preparing Manuscripts for Publication and Assessing the Quality of Manuscripts and Publications

Preparing manuscripts for acceptance in high-quality journals is becoming increasingly challenging and time-consuming for scientists in every research field, career stage, and nationality. Technical writing is certainly an art requiring continual practice and improvement, and adjustment to ever-changing external factors. In this presentation, I aim to provide the underlying reasons for this trend and provide suggestions that will assist in writing of high-quality manuscripts, particularly addressing tips for younger scientists and engineers. The outline of the presentation consists of describing the current status for scientific publishing, the “7 Deadly Sins” commonly committed by authors, suggestions for writing a manuscript, and new trends for scientific journals. Finally, the ability to critically evaluate manuscripts and publications for scientific merit is directly related to technical writing capabilities. Criteria to consider when evaluating manuscripts, publications, and other documents will also be discussed.

Professor Douglas G. Hayes, Department of Biosystems Engineering and Soil Science
University of Tennessee
2506 E. J. Chapman Drive
Knoxville, TN 37996-4531
dhayes1@utk.edu

Douglas G. Hayes is a professor of biosystems Engineering at the University of Tennessee. He also serves as an Adjunct Professor of Chemical and biomolecular Engineering at UT, a Guest Professor at Wuhan Polytechnic University and Jinan University (Guangzhou, China) and is a UT-Oak Ridge National Laboratory Joint Faculty member. Doug received his BS and PhD degrees at Iowa State University (1986) and University of Michigan (1991), both in chemical engineering. He served as a postdoctoral Research Chemist at USDA/ARS/NCAUR from 1991 to 1994 and as an Assistant and Associate Professor at the University of Alabama in Huntsville (Chemical and Materials Engineering (1991 – 1994) prior to joining UT.

Dr. Hayes is an active member of the American Oil Chemists’ Society (AOCS), currently serving on the Governing Board, Senior Associate Editor and Associate Editor for *JOACS* and *J. Surfactant Deterg.*, respectively, and in several other AOCS committees. He recently received the Impact Award from the UT Institute of Agriculture. Dr. Hayes has over 72 publications in peer-reviewed Journals, 19 book chapters, and has 2 co-edited books (with an additional book in pre-publication). His research interests include surfactant self-assembly systems, biobased products, bioplastics and applied enzymology.

Message from the Southeast Chapter Chair

Esteemed friends and colleagues of the Southeast Chapter, it is with great pleasure that I welcome you to what is promised to be a truly exceptional year for our Chapter. First and foremost, I am honored and humbled to serve as the Chair for 2018. I say with all genuineness, that I follow a strong legacy of leaders who have worked together with various vendors, speakers, and businesses within the personal care arena to help make the Southeast Chapter a special organization to serve under.

While we were very disappointed to lose a cornerstone company from our group in 2017, Bayer Healthcare (formerly Schering Plough), it is encouraging that new firms such as Allied Analytical, Glaxo Smith Cline, and River City Scientific have all introduced new members to the forum. It is our hope that we can be flexible with our meeting times and locations to allow care-free travel to our venues.....Thus one change to note this year is a move to the third Thursday of a meeting month.

Our first meeting of the year (March) has been booked at a truly wonderful venue nestled in beautiful Chattanooga, TN... "The St. John's Restaurant" ...It is located in the former St. John's Hotel building. Built at the turn of the twentieth century, the flatiron building evolved over the years from hotel to brothel to abandonment. After being condemned and nearly torn down in the 1990s, local architect and preservationist, Thomas Johnson, purchased the building and began restoration immediately. It will serve as an incredible venue to start of our 2018 meeting schedule, to which we are further honored to have Dr. Douglas Hayes (Department of Biosystems Engineering and Soil Science, University of Tennessee) available to speak on a truly thought-provoking topic.

Due to its popularity we will continue the supplier sponsorship meeting options. Cocktail Sponsorships are \$500.00 per meeting. The sponsor who graciously contributes will receive sincere recognition from the podium. Please contact me if interested; there are a limited number of slots.

Another opportunity for sponsorship will be extended for our Supplier's Social in June. We are particularly proud of this event, as our planning team does an exceptional job picking fun venues. We hope to keep the excitement from last year's Graceland event going. Vendor sponsorship has always been a vital part of our supplier's night success, to which we preserve tiers of support: Silver Sponsor \$100, Gold Sponsor \$250 and Platinum Sponsor \$500.

Can't wait to see you at our scientific dinner meeting on March 15th!

Cubie Lamb, Southeast Chapter Chair

P.S. In addition if you haven't already, please renew your membership!

ATTENTION! ATTENTION!

In-House CEP Courses Available

In-House Courses are highly-personalized courses brought to companies to address challenges or areas of need. These courses, taught by knowledge experts, provide professionals with an up-to-date cosmetic science education. Recent In-House Courses have been organized for **Benefit Cosmetics**, **Mary Kay**, **Bayer**, the **FDA** and others.

Companies interested in providing in-depth technical information to their employees can contract an education day in a location of their choosing.

- ▶ **SOCIETY** covers the costs of booking the instructor and all of the instructor's traveling expenses (including hotel, flight, car, etc.)
- ▶ **COURSES** can be scheduled for 1 or 2 days on any topic of particular interest to the company
- ▶ **COMPANIES** can choose the instructor if they seek a specific knowledge expert

Current courses available include:

Scale Up & Processing	Botanicals & Naturals for The Naturals Market	Preservatives
Regulatory	Chemistry & Regulations of Cosmetic Colorants	Cosmetic Rheology
Color	Molecular Biology & Gene Expression	Color & Make-Up
GMPS For Cosmetics	Phytochemistry 101 For Cosmetic Chemists	Surfactants
Cosmetic Formulations	cGMPS For Cosmetics and Otc's	Cosmetic Raw Materials
Regulatory Update	Practical Basic & Theory in Emulsion Technology	Fragrance as A Science
Beginning Cosmetic Chemistry	Cosmetic Chemists Guide to Product Development	Silicone Chemistry
Basic Hair Science	Sustainable Cosmetic Product Development	<i>and more!</i>

To reserve a course for your team,

Job Posting

Job Description

SMA COLLABORATIVES, located in Cincinnati, Ohio, is a leading global supplier of ingredients and technologically advanced raw materials to the cosmetic and personal care industry. SMA is a market leader in Bio-fermentation technology platforms, Marine actives, Natural Preservatives, Color pigments, Specialty Silicone elastomers, Phyto Lipids Complexes, and Sensates. At SMA, we strive to innovate new products and technologies to solve the industry's challenging problems while delivering values and competitive advantages to our customers. To support the rapidly growing business for our wide range of product lines including skin care, hair care and sun care, we have an immediate job opening for the Midwest region (**Sales Account Manager**). This position requires an individual who loves to interact with customers and is passionate about selling. The qualified candidate must be self-driven, highly motivated, goal-oriented with strong work ethics, and determination to generate sales. This position has tremendous career growth opportunity.

Primary Responsibilities

- Develop businesses and generate sales with assigned accounts through sales calls, relationships, presentations, advertisement and tradeshow
- Constantly seek out new opportunities with assigned accounts;
- Generate timely Sales Reports to all customers and manage customer accounts;
- Communicates new product opportunities, feedback, special developments, or information collected from the market to proper company staff.
- Establish & maintain new and existing customer relationships;
- Meet Sales Goals & Objectives assigned by the Company;
- About 80% travel is required;
- Other responsibilities as needed

Requirements

- B.S. in Chemistry or related area with 3-5 years of similar sales experience in the Personal Care industry;
- Excellent communication skills in both oral and written English with demonstrated abilities to interact with customers properly to establish and maintain excellent customer relationships
- Effectively self-manage daily activities with strong time and organizational management skills
- Must be a self-starter and quick learner with excellent people skills

Compensation

Please kindly submit your resume and salary requirements along with 3-4 references to info@smacollaboratives.com for further considerations
