Southeast Chapter SCC 2021 Suppliers' Social *Evening*

Bass Pro Shop – Ducks Unlimited Waterfowl Gallery

Thursday, June 17, 2021,

Plan to join us for our 2021 Suppliers' Social Event, for a buffet dinner at the Bass Pro Shop in the Ducks Unlimited Waterfowl Gallery! Tour the swamp containing 100 foot tall trees, alligators and 36 varieties of fish. Complimentary tickets to take the nation's tallest free-standing elevator to the top of the Pyramid are included to take in the spectacular views of downtown Memphis, Tennessee from the Glass Observation Deck.

A block of rooms is reserved at the Big Cypress Lodge in the Pyramid for attendees. Big Cypress Lodge is a 105 room rustic retreat, made up of duck lodges, tree house suites, and a Governor's Suite. Each room offers a screened in porch that overlooks the swamp or a view of Memphis.

We hope you can join us in this fantastic venue and explore everything the Pyramid has to offer!

If you are interested in sponsoring this event, please contact Cathy Anglin canglin@jstrickland.net or John Wagner jwagner2020@comcast.net or any of the Southeast Chapter officers listed on page one. Sponsorship is offered at three levels : Platinum, Gold and Silver. Sponsors will be recognized in the upcoming newsletters and at the event.

In Memoriam

Lisa Mary Sloan

September 24, 1972 - May 8, 2021

Lisa Mary Sloan, 48, passed away on Saturday, May 8th after sustaining debilitating injuries in a car accident 4 years prior.

Lisa served as the Southeast Chapter Secretary, Treasurer-Elect and Treasurer, and as House Chair for several years, always selecting great venues for our meetings and events. She has been greatly missed by the chapter since her accident.

Lisa, a life-long Memphis resident, attended the University of Memphis and Christian Brothers University. At the time of her accident, she was the Director of Product Compliance for W.M. Barr after previously serving as a Scientist for Merck. Lisa enjoyed running, running with her dog, Archie, and running marathons. Lisa was a self-appointed eyewear spokesperson and had more pairs of glasses than is reasonable. She loved working in her yard, entertaining at her house, going to Grizzlies games, and making lists. One of her greatest pleasures was traveling with her cherished friends to ski, visit the beach, or run marathons.

She is survived by her mother, Laurie Holland, sisters, Julie Cupples and Leslie Holland, nephews, Jon, David, and Chase Cupples, and Reid Holland-Allan, and beloved dog, Archie. She was preceded in death by her father, Herbert C. Holland, Jr.

In lieu of customary remembrances, donations may be made to the Memphis Jewish Home. <http://www.memphisjewishhome.org/>

Message from the Chair

So far this year most of my messages have focused on our getting together and having fun. After all I ran on the following platform.

"I think our goal should be to continue having our amazing dinner presentations where we get to catch up with old friends, eat good food and learn something new about our profession."

Our chapter is certainly more than just our dinner presentations. We have outreach and scholarship programs. We work with National, our Area and each other to build connections and help others. Our chapter has incredibly talented people who care a lot. It is my strong belief that it is not so much the venue and food (although yum) that makes our chapter great but the network that we have with each other. A network that is strengthened when we get together, that can be used for much good in the world. Why the reflection? I must admit that the passing of Lisa Sloan, has rightfully caused a pause for me. A moment to consider what matters. Before her accident she was one of the most sparkly people I have had the opportunity to ever know. One of the things I loved about Lisa was her ability to put together a great evening meeting, partly because she had great organization skills and partly because she generally cared so much about the people around her. So in that spirit I wish to dedicate our June 17th Suppliers Day Social at the Pyramid to Lisa. It is an event that she would have loved.

Everyone that can (we know there are many reasons why some can't) please come out on June 17th for the first in person chapter event since the lockdown.

The venue is amazing, see the newsletter for all of the specifics.

[Big Cypress Lodge | Outdoor-Themed Luxury Hotel | Memphis, TN \(big-cypress.com\)](https://big-cypress.com)

Remember from the last newsletter that "practice makes perfect". So, come out practice your social skills, get dressed up by putting on a pair of pants (if you want you can still wear your pajama bottoms, but we will have fun with it 😊). Come and hang out for the evening. Catch up with old friends and make new ones.

I hope to see you there.

Sincerely,

Stephen Baldwin, 2021 Southeast Chapter Chair

And last but not least, "When Chuck Norris enters a room, he doesn't turn the light on, he turns the dark off".

SOCIETY OF COSMETIC CHEMISTS

Cosmetic Product Development: Lab to Launch

Announcing the SCC Education Week Event! Join the Society of Cosmetic Chemists for a full week of cosmetic science education. On June 21-25, 2021, the SCC presents a series of online CEP courses concentrating on **4 key areas in the development of a cosmetic product:**

- *Raw materials*
- *Formulating for the delivery of active ingredients*
- *Prototype development and testing*
- *Scale up and manufacturing.*

SCC Education Week is an exciting week of education that will end with a panel seminar focused on claims substantiation of finished cosmetic products. [\[LEARN MORE\]](#)

Attendees have three registration options to choose from based on their specified interests:

- **NextGen Track (\$300 for SCC Members)** - access to all courses labeled "NextGen" on Monday, June 21 - Thursday, June 24. Includes the bonus seminar & networking event on Friday, June 25.
- **Advanced Track (\$300 for SCC Members)** - access to all courses labeled "Advanced" on Monday, June 21 - Thursday, June 24. Includes the bonus seminar & networking event on Friday, June 25.

Full Education Week (\$425 for SCC Members) - access to courses in both the Advanced and NextGen Track.

For Complete Course Information and to Register:

SOCIETY OF COSMETIC CHEMISTS
SERVING GREATER NORTH AMERICA SINCE 1945

Annual Southeast Chapter Scholarship Available

Dear Undergraduate/Graduate Scholarship Applicants:

The Society of Cosmetic Chemists, Southeast Chapter will award two \$1,000 scholarship to an undergraduate or graduate student exhibiting academic excellence in any science-related discipline. Special consideration will be provided to individuals who are majoring in cosmetic science or chemistry.

The scholarship is an achievement-based scholarship awarded to the student based on their leadership attributes, academic merits and achievements, extracurricular activities, and any research projects related to the field of study, if applicable.

The Southeast Chapter's website <http://www.southeastsc.org/> will display forms and instructions to assist in the application process.

The Southeast Chapter's Scholarship Committee is comprised of a panel of volunteers. The committee will begin to review applications September 6, 2021, to which the deadline for submission will be September 3, 2021. The Scholarship winner will be notified by email prior to the Southeast Chapter's November 2021 Officer Installation meeting. The candidate will also be invited to attend the meeting to receive the scholarship in person. If candidate is unable to attend the meeting, he/she may elect to receive the scholarship by certified mail. A short biography and photo of the Scholarship winner will be published in the March 2022 SECC newsletter and on the website.

We look forward to receiving your application and wish you the best in your future endeavors.

Best Regards,

Stephen Baldwin
2021 Southeast Chapter Chair

The application form is available on our Website:

AOCS/SCC WEBINAR: PRACTICAL ASPECTS OF COSMETIC EMULSIONS UNDER THE NEW LAMELLAR GEL NETWORK MODEL

MAY 25, 2021 (11:00 AM – 12:00 PM ET)

The Lamellar Gel Network (LGN) model can predict and explain key aspects of cosmetic emulsions, from rheology to sensorial attributes and long-term stability. It also offers insights into the delivery of actives from emulsions. The **Society of Cosmetic Chemists** is excited to team up with the **AOCS** for an open access webinar where **Dr. Ricardo Diez** will provide an overview of the LGN model and demonstrate its utility by explaining the properties of several commercial cosmetic products..

View webinar information and registration [here](#).

AOCS/SCC WEBINAR: HIGH THROUGHPUT FORMULATION OF SUSTAINABLE COSMETIC AND CONSUMER PRODUCTS

MAY 27, 2021 (1:00 PM – 2:00 PM ET)

The utilization of high throughput formulation automation platforms and advanced characterization techniques provides a route into fast engineering of the microstructure and interactions for effective product formulation design. The **Society of Cosmetic Chemists** is excited to team up with the **AOCS** for an open access webinar where **Prof. Samiul Amin** will illustrate the utility and benefits of this approach for a range of sustainable and biodegradable alternatives and their combinations.

Our May recipe is from Tami Thomas, our Southeast Chapter Chair-Elect. Pimento Cheese Cornbread is her son's award-winning recipe from the Lodge Cast Iron Festival Cornbread Cookoff in South Pittsburg, TN.

Pimento Cheese Cornbread

Ingredients:

4 teaspoons butter, melted
 2 cups shredded Cheddar cheese
 1 (4 oz) jar diced pimentos
 1 cup plain yellow cornmeal
 1 cup all-purpose flour
 1 cup milk
 ¼ cup canola oil
 ¼ cup sugar
 2 teaspoons baking powder
 ½ teaspoon salt
 1 egg, beaten

Baking Instructions:

Preheat oven to 400°.

Pour oil in a 10" cast-iron cornbread pan or skillet, coating entire surface so that cornbread does not stick. Put skillet in oven while mixing remaining ingredients.

In a large mixing bowl, combine remaining ingredients, stirring just until moist. Remove skillet from oven and pour batter into prepared pan.

Bake for 25 minutes, or until top begins to brown.

Yield: 16 servings

Preparation Time: 8 minutes

Bake Time: 25 minutes

CALIFORNIA CHAPTER SUPPLIER'S DAY 2021

Dates/Times:

Wednesday October 13th & Thursday October 14th,
2021. - Long Beach, California

Email: Suppliersday@caliscc.org to be added to our
interest list .

CaliSCC Suppliers' Day serves as one of the most
important North American events, with more than 300+
global Cosmetics and Personal Care industry leaders. All
showcasing their new innovative ingredients,
packaging, formulating contract packers, labelers,
equipment suppliers, regulation specialist, and testing solutions. This biennial event is one not to miss. Free education
presentations, technical posters, conferences, and regulatory updates under one roof for two days.

You can now support the Society of Cosmetic Chemists every time you shop
on Amazon! It's a simple and easy way to contribute, at no additional cost to
you, to the SCC education fund to help us provide new education
opportunities!

When you shop Amazon using the link <https://smile.amazon.com/ch/13-1976655>, you'll find the exact same low prices and convenient shopping
experience you're used to with Amazon, with the added bonus that Amazon
donates a percentage of the price of eligible items to the Society of Cosmetic
Chemists, at no extra cost to you!

AREA IV 2021 TECH TALK SERIES

Thursday, May 20th, 2021

Location: SCC Webinar – Registration Email

New Perspectives on Aging Skin

Howard Epstein of EMD Performance Materials

Abstract

The world's population of people over 60 years of age is rapidly increasing as is life expectancy. For this reason, the cosmetics industry is interested in understanding the biology of aging skin with a goal to fight the appearance of aging skin and ultimately slow down the aging process. Aging is a complex series of events that occur slowly over the course of time. Both internal and external factors influence aging skin. There are variations in the way people age that are associated with genetics, gender, ethnicity and lifestyle.

This presentation will discuss photoaging associated with chronic inflammation, UV, IR and blue light-induced photoaging, protein oxidation and why the impact of each may result in a difference of aging skin in various skin types. Understanding the molecular biological mechanisms associated with the variation of aging including the variation in appearance of aging skin will help in product development of improved personalized skin and hair care products.

Speaker Bio

Dr. Howard Epstein is Director, Technical Services for EMD Performance Materials Corporation, an affiliate of Merck, KGaA, Darmstadt, Germany. He was a scholar in residence at the University of Cincinnati department of dermatology and received his Ph.D. in Pharmacognasy from the Union Institute & University in Cincinnati, Ohio during that time. Howard has authored chapters in various cosmetic technology textbooks including Apply Topically, and a chapter in the Manual of Gender Dermatology. He was editor of the Journal of Cosmetic Science and authored and edited various chapters in Harry's Cosmeticology, ninth edition recently published. Howard has extensive experience in the cosmetic industry, formulating for Estee Lauder, Maybelline, Bausch & Lomb and KAO brands. Howard has six formulation related patents and currently serves on the editorial board of the dermatological journal SKINmed, representing the cosmetics industry to dermatologists.

LIPIDS IN PERSONAL CARE AND COSMETICS

ONLINE COURSE

DAY 1: JUNE 7, 2021 (9:00 AM – 12:00 PM CT)

DAY 2: JUNE 9, 2021 (9:00 AM – 12:00 PM CT)

DAY 3: JUNE 11, 2021 (9:00 AM – 12:00 PM CT)

A collaboration with the [AOCS](#).

Instructed by **Benjamin Schwartz; AAK USA Inc.**, the course will provide a detailed look into the roles that plant-based lipids can play in personal care and cosmetic formulations. Particular focus will be put on how the structure of fatty acids found in plant-based lipids, and more importantly the triglycerides and wax esters that contain them, determine the interdependent properties of oxidative stability, compatibility, solid fat content, and crystallization types of various oils, fats, and waxes. Further, we will examine how these properties can inform our choices of oils, fats, waxes, and their derivatives within different personal care and cosmetic products, including anhydrous and emulsion-based products. Finally, we will review some of the scientific literature describing the potential therapeutic benefits of different components of plant-based oils and fats.

This course will be hosted on the AOCS online education platform, and course registration will be through the AOCS. SCC members will receive AOCS member pricing (\$100 discount) via a promotional code. Please contact the SCC at cep@scconline.org if you are a member and would like to register for this course but have not yet received a promotional code.
