Value through expertise

Message from the Southeast Chapter Chair

I will start by stating that the September SESCO Lunch and Learn presented by Paul Slavashovich in beautiful Murfreesboro, Tennessee was truly exceptional. Paul's topic, "Modern Product Protection -Regulatory Landscape, Trends and Solutions", was well conceived and provided detailed information on current and prospective ideologies with preservative challenges, especially in relation to some current marketing trends aimed at staining traditional preservative systems. We would also like to "shout out" Five Senses restaurant for actually shutting down their facility just to accommodate our meeting. The food was truly exceptional and we definitely look forward to using them again to serve our future needs. Very Special thanks to Christine Anderson at Colonial Chemical, for organizing the venue and insuring that all logistical arrangements were in order.

Alas, 2018 is nearing an end and we only have one meeting left this year; which is our Officer Installation. This year's installation will again be held at Season's 52 Fresh Grill in Memphis, TN on November 15th; Meet and greet along with registration and cocktails will commence at 5:30 pm with dinner at 6:00.

If you haven't already renewed your SCC membership, please do so before December 31st. The Southeast Chapter has experienced great membership growth this year and we look to keep that momentum going into 2019. So please renew yourselves and I ask that you invite at least one colleague to consider membership as well.

Look forward to seeing you on November 15th at the Officer Installation. Please RSVP with myself Cubie Lamb @ clamb@jstrickland.net.

Sincerely, Cubie Lamb, SCC Southeast Chapter Chair

Membership/Chapters: cdaddino@scconline.org; 646-545-3516

We thank you in advance for your patience & look forward seeing you in December at the Annual Meeting!

Sincerely,

SCC HQ Team

2019 Volunteers Needed!

The Southeast Chapter Officers needs your help to continue the fine programs and growth that we have experienced over the last year. We need volunteers to help us as committee chairs to help with several areas of our programs.

Very important on this list is a volunteer to lead our Membership and NextGen initiative. Launched in 2015 by the Society of Cosmetic Chemists, the NextGen Initiative was created to help young professionals and students further their education to attain successful and rewarding careers. Bridging the gap between young professionals and established professionals is at the heart of this critical initiative. Brought about by a need to align education and training with workforce needs, our mission is to attract, educate and provide for the advancement of our members. We want to recruit members from area Universities and help provide younger chemists with information about our industry and the opportunities available.

We also need a volunteer to head our Hospitality program. This would involve help with selection of meeting sites and venues, and greeting any new members at our meetings. In addition, we need a Website administrator - hopefully a volunteer with a background in this area so we can keep our members informed, and provide a place for job postings for positions in our industry. For the final committee, we need a volunteer to serve on the Bylaws committee, with our chapter officers.

If you would like to help out in any of these areas, please contact 2018 Chair Elect, Avantika Bandopadhyia (Abandopadhyia@jstrickland.net) or 2018 Chair, Cubie Lamb (Clamb@jstrickland.net).

ATTENTION! ATTENTION!

In-House CEP Courses Available

In-House Courses are highly-personalized courses brought to companies to address challenges or areas of need. These courses, taught by knowledge experts, provide professionals with an up-to-date cosmetic science education. Recent In-House Courses have been organized for **Benefit Cosmetics**, **Mary Kay**, **Bayer**, the **FDA** and others.

Companies interested in providing in-depth technical information to their employees can contract an education day in a location of their choosing.

- ▶ **SOCIETY** covers the costs of booking the instructor and all of the instructor's traveling expenses (including hotel, flight, car, etc.)
- ▶ **COURSES** can be scheduled for 1 or 2 days on any topic of particular interest to the company
- ▶ **COMPANIES** can choose the instructor if they seek a specific knowledge expert

Current courses available include:

Scale Up & Processing	Botanicals & Naturals for The Naturals Market	Preservatives
Regulatory	Chemistry & Regulations of Cosmetic Colorants	Cosmetic Rheology
Color	Molecular Biology & Gene Expression	Color & Make-Up
GMPS For Cosmetics	Phytochemistry 101 For Cosmetic Chemists	Surfactants
Cosmetic Formulations	cGMPS For Cosmetics and Otc's	Cosmetic Raw Materials
Regulatory Update	Practical Basic & Theory in Emulsion Technology	Fragrance as A Science
Beginning Cosmetic Chemistry	Cosmetic Chemists Guide to Product Development	Silicone Chemistry
Basic Hair Science	Sustainable Cosmetic Product Development	<i>and more!</i>

To reserve a course for your team,
contact Sam Neely at sneely@scconline.org

Plan Now to Advertise in the 2019 Newsletter

Plan now to advertise in the 2019 Southeast Chapter Newsletter! The Southeast Chapter Newsletter will be distributed on our Website (<http://www.southeastsc.org>) and by email five times during 2019. We will publish an edition for March, April, June, October and November. The ad can be in color or black & white, and the yearly price is based on the size of the ad.

The artwork must be in jpeg format and should be emailed to canglin@jstrickland.net by February 1, 2019 to be included in the edition that will announce the March meeting. Pricing for all ads for the year are as follows:

2 in x 2 in	\$325
2 in x 3 in	\$350
2 in x 4 in	\$400
4 in x 4 in	\$600

Payment should be remitted to SCC Southeast Chapter and mailed to us at SCC Southeast Chapter, PO Box 182, Olive Branch, MS 285654.

Employment Opportunity

Senior Product Applications Chemist

Colonial Chemical Inc., a growing specialty chemical manufacturer, is seeking a Senior Product Applications Chemist. This position, reporting to the Research and Development Manager, will be responsible for overseeing a group of chemists and is responsible for advancing formulation expertise across multiple end-use categories. They work cross-functionally to design experiments and analyze data to produce effective sales tools and communicate that information to customers. The successful candidate will utilize market expertise to develop new products, formulations and product claims. They will attend a variety of trade shows/conferences to promote products and communicate findings.

The successful candidate must have a bachelor's degree from an accredited college or university, and 5 years of previous formulation experience. The candidate must have a strong working knowledge of surfactants and associated formulation science. The successful candidate must have knowledge of formulation concepts for multiple markets (PR, HI&I, oilfield, and more). Ability to work with minimal direction and guidance is a must. Must be flexible and able to change quickly with a fast-paced environment. Must have strong written and verbal communication skills.

Colonial Chemical is located at 225 Colonial Drive, South Pittsburg, TN 37380.

Please apply online at <https://colonialchem.applicantpro.com/jobs/808253.html>

You can also send resumes to carmen.ohagan@colonialchem.com

Employment

A company in the Atlanta area is currently seeking candidates for the position listed below.

FORMULATION CHEMIST

JOB DESCRIPTION

Contribute to the Product Development activities by creating new formulas, adjusting and fixing current formulas, and performing all necessary testing including, stability & Compatibility testing, physical & chemical testing, and clinical & performance testing.

Create, implement and review product procedures and specifications according to the industry and the company's standards and requirements.

Standardize and safely document approved Formulas to create final Master formulas including, specifications, procedures, raw material sources and test results.

Must actively source raw materials and negotiate pricing with all vendors and suppliers.

Participate and work closely with the production team in executing production batches and ensure the scale ups and technology transfers are properly done between R&D and Production.

Work jointly with the Regulatory team in providing necessary documents.

Maintain and adhere to the Good Manufacturing Practices within the lab and manufacturing.

Participate in the process and protocol improvement of the lab and the manufacturing area in order to increase efficacy, safety and quality.

Collaborate and participate in several management meeting with other team members from other departments, such as sales, marketing and operations.

Assist in resolving technical problems by being part of the entire process of investigation and make recommendations to solve the issue.

REQUIRED SKILLS AND EXPERIENCE

A minimum of a Bachelor of Science in Chemistry or a related field.

Three to five years applicable experience in the cosmetic industry, preferably in the Skin Care and Hair Care formulation and manufacturing.

Excellent organizational skills.

Excellent communication skills.

Must be able to work independently.

Must be thorough, meticulous and detail oriented.
