The Feed Co., Table and Tavern

201 West Main Street, Chattanooga, TN 37048

Located in Chattanooga's thriving Southside, The FEED Co. is an artful combination of tavern and family dining with a stunning destination, and an inviting farm fresh menu.

Our neighborhood restaurant offers a seasonal menu of inventive farm fresh cuisine cooked simply and deliciously in a warm and inviting atmosphere by executive chef, Charlie Loomis.

For a unique, memorable experience join us for axe throwing in Chattanooga, Tennessee! We are located on Market Street in the heart of downtown Chattanooga, right next door to Panera Bread and tons of other fun places to visit!

Whether you want to channel your inner lumberjack, or try out a fun and competitive new hobby, axe throwing is a one-of-a-kind new sport that's taking North America by storm. Axe throwing is easy to learn (similar to throwing darts, but with axes!), and every aspect is designed with your fun and safety in mind. It's a perfect way to celebrate a special occasion, organize a team building event, or simply have an awesome time with family and friends!

Professional instructors are available to show you the ropes and facilitate your experience with us the entire time you're here. Watch out — guys and girls alike, once you stick your first throw, you'll be hooked!

Open your eyes.

“Sultaines, A More Sustainable Replacement for Traditional Amphoteric”

Robert N. Comber, Ph.D.
Colonial Chemical

By replacing a common petrochemical intermediate with a biobased substitute, a series of sultaine surfactants have been developed to replace traditional amphoteric, including betaines, with molecules demonstrating similar performance attributes (color, odor, foam characteristics, viscosity enhancement). The resultant products are high purity with higher solids, further reducing their environmental footprint. They also contain fewer impurities, exhibit lower inherent irritation, and have improved compatibility with hard water. End products are readily obtained from a wide variety of natural oil feedstocks. Therefore, additional products with previously unrealized benefits can also be obtained, including a high foaming amphoteric which does not rely on oil palm or coconut feedstocks and a liquid thickener for cleansers with excellent efficiency.

Letter from the 2020 Southeast Chair

Esteemed friends and colleagues of the Southeast Chapter, it is with great pleasure that I welcome you to what is promised to be a truly exceptional year for our Chapter. First and foremost, I am honored and humbled to once again serve as your Chair for 2020. We have a fabulous group of “All-Stars” on our leadership board this year; along with a brilliant group of young ladies serving as leaders of the Nextgen, Hospitality and Membership Support Committees.

Several new and exciting things to look out for this year. Please note the following:

We will offer one scholarship this year (\$1000) to a prospective undergrad/graduate student in our region who is currently pursuing study in a related scientific discipline (more precise details along with applications will be available in our April newsletter).

The Chapter has been awarded a CEP course this year to which our tentative date will be September 11, 2020. Although the exact location is not yet finalized, we are in advanced negotiations with the Chemistry Department at the University of Tennessee-Chattanooga to host the event on their campus. Please continue to monitor the website as well as our newsletters for the logistics concerning final accommodations.

Whoopie! We have entered the social media age! Please feel free to communicate and follow us at Facebook: fb.me/SoutheastSCC or on Instagram [@southeastscscc](https://www.instagram.com/southeastscscc).

Our initial meeting of the year has been reserved at a truly wonderful venue nestled in beautiful Chattanooga, TN... the **“Feed Table and Tavern”**....Located in Chattanooga’s thriving Southside, is an artful combination of tavern and family dining with a stunning decor and inviting farm fresh menu. The interior, designed by the award-winning Cogent Architects, pays tribute to the old bones of the historic Chattanooga's Seed-Feed Supply Co. and updates into a cozy series of rooms that temper elegance with rustic finishes. It will serve as an incredible venue to start off our 2020 meeting schedule, to which we are further honored to have Dr. Rob Comber (R&D Director Colonial Chemical) available to speak on the truly thought-provoking topic of “Sultaines, A More Sustainable Replacement for Traditional Amphoteric”.

Due to its popularity we continue to carry over our supplier sponsorship meeting options. Cocktail Sponsorships are \$500.00 per meeting, to which the sponsor who graciously contributes will always receive sincere recognition from the podium. Please don’t hesitate to contact me if interested, as there are a limited number of slots.

Another opportunity for sponsorship will be extended for our Supplier's Social in June. We are particularly proud of this event, as our planning team does an exceptional job picking fun venues. This year’s event is slated to be held at the Bass Pro Shops at the Pyramid in Memphis, TN, which is one of the landmark attractions in the Memphis area. Vendor sponsorship has always been a vital part of our supplier's night success, to which we will continue with tiers of support at the following levels: Silver Sponsor \$100, Gold Sponsor \$250 and Platinum Sponsor \$500.

Can’t wait to see everyone in Chattanooga on March 19th! Please RSVP by March 13th!

Southeast Chapter 2020 Suppliers' Social Event

Join us at the Bass Pro Shops at the Pyramid in Memphis Tennessee on June 18, 2020. After taking a ride up the country's

tallest free-standing elevator, enjoy the views of Memphis, Tennessee with a specialty drink and delicious meal at The Lookout. Contact Cubie Lamb lambcubie@yahoo.com, or Cathy Anglin canglin@jstrickland.net for information about sponsoring the event.

Corny Chemistry Jokes

What happened to the man stopped for having sodium chloride and a 9-volt in his car? He was booked for a salt and battery.

Helium walks into a bar. The bartender says, "We don't serve noble gases here." Helium doesn't react.

Florence Flask was preparing to attend the opera. Suddenly she screamed, "Erlenmeyer, my joules! Somebody has stolen my joules!" Her husband replied, "Relax dear. We'll find a solution."

What would you call a clown in jail? Silicon

What was Avogadro's favorite sport? Golf, because he always got a mole-in-one.

If you're not part of the solution, you're part of the precipitate!

The SCC Headquarters has begun planning the **74th Annual Scientific Meeting & Showcase (SCC74)**, convening December 15-16, 2020 in NYC at the Sheraton NY Times Square. **All scientists, academicians, policy makers and other stakeholders in the cosmetic and personal care community are invited to submit an abstract** of original work, lab demonstration or case study for consideration to present as a podium lecturer.

PODIUM ABSTRACTS | DEADLINE MARCH 31, 2020

All accepted Podium Presenters will receive a complimentary One Day Access Registration to the Annual Scientific Meeting.

The SCC is looking for submissions covering new or novel ingredient, process, and formulation technologies; sustainability; regulatory; safety; and/or testing and claims, covering both basic and advanced knowledge levels within the following topic areas:

Beauty Personalization & Technology

Color & Optical Effects

Cosmetic Dermatology: Skin Microbiome & Epigenetics

Hair Care Innovation & Market Trends

Natural/Sustainable in Cosmetics & Personal Care

Sun Care and Beyond

Technologies & Trends in Ingredients

and other cutting-edge topics

PLEASE NOTE: Any abstract not selected for a podium presentation will be eligible as a poster/tabletop in the exciting and ever-growing Exhibitor Showcase.

NYSCC SUPPLIERS' DAY 2020 ANNOUNCES SHOW THEME & NEW PROGRAMS

Revolutionary Disruptors Frame the Leading Trade Show & Conference for Innovations in Beauty and Personal Care Ingredients, Raw Materials and Formulations

(New York, NY, November 2019)—North America's main event for beauty ingredients, formulations, and delivery innovations, [New York Society of Cosmetic Chemists \(NYSCC\) Suppliers' Day](#), recently held a press and friends reception in New York City at Casellula to announce its show theme and new educational programming. The 41st Annual Suppliers' Day will take place May 5-6, 2020, at the Jacob K. Javits Convention Center in New York, NY.

At the reception, Giorgino "Gino" Macalino, NYSCC Chair Elect, announced the theme for Suppliers' Day 2020: **"Revolutionary Disruptors"**. Macalino stated, "New educational programs, returning popular content as well as show floor experiences will illustrate how revolutionary disruptors are impacting the traditional way of sourcing and the entire product development cycle. These disruptors impact what consumers want, as well the companies that manufacturer them."

Suppliers Day 2020 will also have a full day conference program on one of the beauty industry's trendiest disruptors, Cannabis, featuring speakers covering sourcing, formulating, testing, branding and distributing as well as legal and regulatory updates. The latest innovations in the Indie market will be featured in a targeted program featuring an experiential component that will include many of the supplier accelerators on the show floor.

Another trend that is disrupting product development Mindfulness/Wellness, will be explored in a session highlighting why this is driving consumer purchasing. Mindfulness/Wellness will also be evident in show floor activations and showcased in the Suppliers' Day 2020 INNOVATIONS HUB.

Disruptors will be highlighted in Suppliers' Day core programs, including Digital Age of Beauty, World of Chemistry, Discover Sustainability as well as included in new tracks focusing on color cosmetics, hair care, and healthy aging.

NYSCC Suppliers' Day also announced it will continue working with other industry-empowering organizations that are committed to helping the beauty and personal care industry innovate and grow including ICMAD, IFSCC, PCPC, and market analyst firms such as Kline, Spate and Mintel.

NYSCC will again partner with CEW on its Supplier's Award: Ingredients and Formulation, recognizing the role of formulation and ingredients in creating standout products for consumers. The winner will be announced at Suppliers' Day and then celebrated at the prestigious CEW Beauty Awards luncheon the following week.

The Future Chemists Workshop will be back at Suppliers' Day 2020. This "live lab" experience on the exhibit floor is popular with students and will include a wider net of participating schools, as well as a challenge that will allow winning students to be rewarded; details to be announced shortly.

"Revolutionary Disruptors will take Suppliers' Day to the next level and provide attendees with relevant content and immersive experiences that will advance their product development and formulations," said Macalino.

Carolina Chapter's Naturally Kiawah

This Fall, the [Carolina Chapter](#) will host their Naturally Kiawah Symposium on Kiawah Island in South Carolina. It is the perfect opportunity for professionals in the Industry to become inspired by informative sessions while engaging with colleagues in a relaxed atmosphere. On September 30 – October 2, join attendees in this 3-day discussion on **all things natural** in the cosmetic industry; Green/Natural Packaging, Sustainable Sourcing and Manufacturing, Fair Trade Opportunities in Personal Care, Effect of Natural/Green Products on Skin Biology and more are explored by experts in the field. Then, enjoy a day on the green during the Annual Golf Outing at Cougar Point.

Naturally Kiawah will feature CEP courses that are to be followed by a Cocktail Reception and Supplier Showcase.

The [Naturally Kiawah Symposium](#) is a growing event with a dedicated following of professionals interested in providing the best cosmetics & toiletries while being conscious of the environment.

Registration is not yet open but there is still time to answer the [Call for Papers!](#)

#naturallykiawah2020

You can now support the Society of Cosmetic Chemists every time you shop on Amazon! It's a simple and easy way to contribute, at no additional cost to you, to the SCC education fund to help us provide new education opportunities!

When you shop Amazon using the link <https://smile.amazon.com/ch/13-1976655>, you'll find the exact same low prices and convenient shopping experience you're used to with Amazon, with the added bonus that Amazon donates a percentage of the price of eligible items to the Society of Cosmetic Chemists, at no extra cost to you!

Society of Cosmetic Chemists Celebrates 75 Years

SOCIETY OF COSMETIC CHEMISTS
SERVING GREATER NORTH AMERICA SINCE 1945

January 7, 2020 – New York, NY —

This is a very special year for the Society of Cosmetic Chemists (SCC) as the organization celebrates its Diamond Jubilee. Founded in 1945, the SCC is the oldest and largest membership organization focused exclusively on cosmetic science education.

“After 75 years, the Society boasts one of the biggest footprints in the cosmetics and personal care industry,” said Erica O’Grady, CAE, Executive Director/CEO of the Society. *“With our international, national and local events, we are proud to represent the industry and the greater scientific community as a well-respected organization that has never strayed from its mission: to advance cosmetic science.”*

This past year, the SCC acquired a record 5,700+ members globally – with some of those memberships spanning as many as five decades – which speaks directly to the value of SCC membership. The last 75 years have featured seventy-three annual scientific meetings, two US-hosted international congresses with the International Federation of Societies of Cosmetic Chemists (IFSCC), two co-hosted intercontinental conferences with the Italian SCC, multiple industry partnership collaborations, and hundreds of education events presented domestically.

“When you reflect back on our history it is evident that education, innovation and collaboration are very important to the SCC,” said Mindy Goldstein, the 74th SCC President and owner of Mindy S. Goldstein, PhD Consulting. *“I am sure that our founder, Maison G. deNavarre, would be very proud of all his predecessors’ accomplishments in pursuit of realizing his vision for the Society.”* she added.

To commemorate the occasion, a new 75th Anniversary logo was unveiled at the SCC’s 2019 Annual Scientific Meeting & Technology Showcase on December 18th in New York City.

Southeast Chapter Installs 2020 Officers

2020 Chapter Officers, Molly McEnery, Treasurer, John Wagner, Treasurer-Elect, Cubie Lamb, Chair and Tami Thomas, Secretary (Missing Stephen Baldwin, Chair-Elect.)

Michelle Hines, 2020 SCC National Vice President -Elect speaks to Southeast Chapter's 2019 Chair, Avantika Bandopadhyaya and 2020 Chair, Cubie Lamb.

Cathy Anglin, John Wagner, Molly McEnery, Tami Thomas, Cubie Lamb, Avantika Bandopadhyaya and Michelle Hines at the 2020 Officer Installation for the Southeast Chapter on November 21, 2019 at Jim's Place Grill in Memphis, TN.

Treasurer Molly McEnery and Treasurer- Elect John Wagner man the registration table.

Michelle Hines, 2019 SCC National Secretary – 2020 National Vice President-Elect installed the Southeast Chapter Officers in Memphis, Tennessee. Although we missed our Chair-Elect, Stephen Baldwin and his Chuck Norris jokes at the installation, the Chapter Members all are looking forward to another great year!
