Directions to Currents Restaurant in River Inn of Harbor Town in downtown Memphis. (see red marker on map below).

From Riverside Drive, take Auction Ave. and cross Auction Bridge, turn left at end of road, then left again to Harbor Town Square.

Message from the Southeast Chair:

The Southeast Chapter Supplier's Event in June has come and gone. It was a lot of fun. We could not have done it without the support of our vendor community as well as the participation of all those who attended. We knew we were taking a weather risk having an outside venue on the grounds of the National Ornamental Metal Museum, overlooking the Mississippi River. Early in the evening it looked like we were going to have problems, the wind kicked up knocking things over and it rained. However when we needed to start the evening events, the wind had dropped to a nice breeze off the river and the earlier rain cooled everything down. I don't think we could have asked for a more pleasant evening. The metal museum and grounds were interesting. The background music was excellent along with the food, drink and door prizes. Special thanks to all of our vendors, everyone that attended either, donated money to the event, sponsored a specific part of the event or brought door prizes. The feedback we have received has all been positive. Our smaller size and wonderful people make it easier for us to get to know each other than in some of the other chapters.

Special thanks to **McCullough and Associates** for sponsoring the cocktail hour, next year we will have more beer.

And a special thanks as well to **ISP** for sponsoring the live music for our evening. The harps as background music were wonderful.

Our house community has come up with yet another great meeting place for our September 15th dinner/presentation. Please join us at **Currents Fine Dining** located in the **River Inn of Harbor Town**. The presentation will be given by **Christine Barrett** of **ISP** on "**Understanding the mechanism by which polymers affect the SPF and Water Resistance of Alcohol Sunscreen formulations.**"

See you there.

Stephen Baldwin
